# STATISTICAL RESULTS OF COOPERATIVE EXTENSION WORK, 1930

## Introduction

Extension work in 1930 was carried on by 4,293 county extension agents assisted by the equivalent of 1,090 full-time subject-matter specialists. This is an increase of 123 county extension agents and 122 specialists over 1929. (Table 1.) The statistical information contained in this report is based on the annual reports of 4,154 county extension agents who reported on all extension work done in their respective counties, supplemented by reports of State supervisors covering work in counties without extension agents.

Table 1. - Number of County Extension Agents Employed and Number Reporting\*

\*Assistant extension agents included.

\*\*In some instances, work done by club agents was included in the reports of the county agents.

DISTRIBUTION: A copy of this circular has been sent to extension directors, State and assistant State supervisors, extension specialists, extension editors, State agricultural college libraries, and State experiment station libraries.

## National Program of Work

The relative amount of time county extension agents and specialists devoted to the various subject-matter lines of work gives a fairly good picture of the national program of extension work. (Table 2) For purpose of comparison corresponding percentages for 1929, 1928, 1927, 1926, and 1925 are given.

\*Only field work of specialists as reported by county extension agents is included.

\*\*In 1930 time spent on soils has been distributed among the various crops, nutrition has been combined with foods, child care and training added as a new project, and time spent on maintaining the county extension association and in building extension programs has been separated from miscellaneous.

It is interesting to note the uniformity in the proportion of agents' and specialists' time devoted to the different subject matter lines during these six years. Miscellaneous activities in 1930 occupied 7.5 per cent of the time of extension workers; farm crops, 15.2 per cent; horticulture, 8.7 per cent; Dairy-ing, 7.7 per cent; Poultry, 7.6 per cent; Organization, 7.1 per cent; and Foods and Nutrition, 7.0 per cent.

### Result Demonstrations

The total number of adult result demonstrations conducted in 1930 was 934,182 as compared to 929,744 for 1929 and 851,526 for 1928. The number of projects completed by club members was 971,308 as compared to 995,262 in 1929 and 882,795 in 1928. (Table 3.)

\*\*Boys' and girls' club members completing.

Regarding adult demonstrations, all projects showed an increase in 1930 over 1929, except Dairying, Home Management, and Home Health and Sanitation.

In connection with junior club members completing there was an increase in 1930 over 1929 in all projects except Horticulture, Dairying, Agricultural Engineering, Home Health and Sanitation, and Miscellaneous.

#### 4-H Club Work

The number of different boys and girls enrolled in 1930 was 66,618 greater than in the previous year and the number of different boys and girls who completed the work outlined in 1930 exceeded by 46,858 the number who completed in 1929. The number of projects started was lower in 1930 by 78,530 and the number of projects completed lower by 23,954 than in 1929. (Table 4)

The annual report form used in 1930 furnished for the first time some material information regarding the ages of club members and the number of years they have been in club work.

According to Table 5a, 74.1 per cent of the boys and girls were enrolled in club work two years and under, 13.5 per cent were enrolled three years, while the other 12.4 per cent have been in club work for a period of four years or more.

From Table 5b, it will be noted that 40.8 per cent of the boys and girls in club work were 12 years old and under, 40.7 per cent were 13 to 15 years inclusive, and the remainder, or 18.5 per cent, were from 16 to 20 years of age.

### Statistical Summary

Table 6 gives a detailed statistical summary of the results of cooperative extension work in 1930. The results as reported by county agricultural agents, county home demonstration agents, and county club agents are listed separately. The number of county extension agents of each kind reporting on the various items is also given for purpose of comparison. A complete summary of all club work is given in Table 7, page 26.
